Experience

Software Engineer (Frontend) Nov. 2025 – Present
Single Software *Campina Grande, PB, Brazil*

- Develop and scale frontend architecture for high-performance white-label iGaming platforms using **Vue.js 3**, **Nuxt.js**, **TypeScript**, **Pinia**, and **Tailwind CSS**.
- Lead frontend development for the administrative **Backoffice** platform (management, operations, and reporting) and build user-facing interfaces for multiple client brands.
- Spearheaded the conception and implementation of an **AI-powered Chatbot** integrated into the Backoffice, enabling operators to query contextual data, perform system actions, and adjust configurations via natural language.
- Implemented end-to-end **internationalization (i18n)** for English and Spanish, expanding platform readiness for international markets.
- Refactored legacy features and standardized component libraries using **PrimeVue** and **Vuetify**, ensuring high code reusability, modularity, and strict adherence to architectural standards.

Fullstack Developer Jan. 2025 – Nov. 2025
SMN Tecnologia da Informação *Campina Grande, PB, Brazil*

- Engineered fullstack features for an enterprise educational management system (staff/student portals, access control, scheduling, and reporting) using **TypeScript**, **C#**, **.NET / ASP.NET**, and **SQL Server**.
- Designed and optimized high-throughput **RESTful APIs** for inter-module integration, reducing internal processing latency and ensuring data consistency across services.
- Created interactive dashboards and intuitive UI workflows, improving user experience and empowering stakeholders with clear KPI visualizations.
- Collaborated in agile sprints, participating in code reviews, continuous refactoring, and enforcing clean code practices with Git version control.

Frontend Developer (Freelance) Nov. 2024 – Jan. 2025
AquaProduce *Recife, PE, Brazil*

- Built a modern, responsive landing page for an aquaculture firm, prioritizing fast load times, responsive layouts, and cross-browser compatibility.
- Implemented technical **SEO** best practices, accessibility standards, and interactive animations, driving brand credibility and user engagement.

Education

Unifacisa Centro Universitário Campina Grande, PB, Brazil
Bachelor of Science in Information Systems – GPA: 8.9/10 *2023 – 2027*

Federal University of Campina Grande (UFCG) Campina Grande, PB, Brazil
Bachelor's Coursework in Electrical Engineering *2019 – 2021*

Technical Skills

Languages: TypeScript, JavaScript, C#, SQL (PostgreSQL, SQL Server, MySQL), HTML5, CSS3
Frameworks & Libraries: Vue.js (Vue 3), Nuxt.js, React, Next.js, Node.js, .NET / ASP.NET, Pinia, PrimeVue, Vuetify, Tailwind CSS
Tools & Concepts: Git, Docker, RESTful APIs, AI/LLM Integration, i18n, Clean Code, Agile/Scrum

Languages

Portuguese: Native
English: Professional Working Proficiency
Spanish: Elementary Proficiency
